using mimio® technology

Interactive Learning Made Easy!

# CleverBOARD™

using mimio® technology

CleverBOARD makes interactive technology as easy as making notes on a whiteboard - and does much more besides!

CleverBOARD is a highly versatile and original product, as well as attractive and secure. The surface is made from an almost indestructible vitreous enamel, and with mimio® interactive technology incorporated securely into the unit, the whiteboard instantly becomes interactive. Connect the CleverBOARD to your computer, load the mimio® software onto your laptop or PC and note taking is instantaneous. By writing or drawing on the surface, you can electronically capture your lessons in colour as you go.

The secure cabinet holds all accessories, including the serial cable. At the end of the lesson, just place the accessories into their storage point on the board, disconnect your PC or printer and lock the security doors. The CleverBOARD is then secure until you need to use it again.

Use your existing projector and PC.....

# Interactive Learning

## Features of the CleverBOARD:

- Board surface has a lifetime guarantee
- Mimio technology hardware comes with a three year guarantee
- Totally secure and lockable
- Universal key locking mechanism
- Wall or stand mounted
- Replacement accessories available
- The USB adaptor automatically installs and configures your ports and drivers, adding true plug-and-play versatility to your CleverBOARD

## High Quality Whiteboard

The CleverBOARD has a Vitreous Enamel whiteboard. The surface is scratch resistant, accepts magnets and can be used with any type of dry marker pen.

## Projection Screen

So versatile, that with its specially formulated surface, this innovative board is able to receive projected images and you see clear, sharp pictures every time.

## Interactive Board

Designed to allow you to connect to your PC and write or draw on its surface, electronically capturing your classroom notes in colour as you write.

## Touchscreen

Using any LCD projector, turns the whiteboard into an interactive touchscreen, which is perfect as a visual communications tool in any teaching environment.

## mimio® software allows you to:

- Record your CleverBOARD activity
- Capture your notes on your PC or laptop
- Review a CleverBOARD session by playing back your notes
- Print your board or series of boards to your on-line printer(s)
- Share boards by sending your notes to other users of the free mimio® software
- Export your CleverBOARD session in a variety of formats, such as JPEG, Bitmaps, Metafiles & HTML
- Drag and drop whiteboard images into popular Windows® applications
- Use mimioMouse® to turn your CleverBOARD into a Windows® touchscreen
- Use the mimio® control panel to turn your whiteboard into a numeracy board

## Additional features of CleverBOARD and mimio®

Print directly from CleverBOARD without using your PC, just attach a printer to your CleverBOARD and print directly.

Use BoardCast® and Handwriting recognition over the internet by creating multi-media presentations for distance learning with synchronised audio and text files and drawings for live viewing through your network server.

.....with the cleverly designed accessories and software.....

# Learning Made Easy!

# The Only Whiteboard You'll Ever Need!

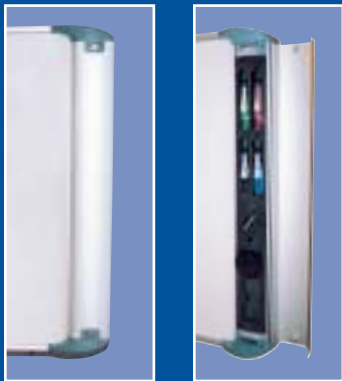

Whiteboards have become familiar in Education over the past few years. The BIG challenge has been to get lesson notes from the board to the pupils quickly, easily and efficiently - that's where CleverBOARD is indispensable in the classroom!

Height adjustment is quick and easy

## CleverBOARD Stand

CleverBOARD comes with a wall mounting kit, but can be mounted securely on a stand. Simple turn wheels allow the height to be varied through 16 inches to enable everyone from children to teachers to use CleverBOARD comfortably.

CleverBOARD's secure locking system.

## Secure Locking Mechanism

CleverBOARD's unique locking system allows you to safely store all your accessories, including the serial cable. A universal key is used to access the CleverBOARD, so multiple or individual keys are not required.

CleverBOARD's control panel

## CleverBOARD Control Panel

CleverBOARD is designed with an easy to operate finger-tip control panel, within which the mimio technology is contained. At the end of the lesson the control panel is securely locked for complete safety.

## CleverBOARD Sizes

CleverBOARD is available in three different sizes:-

- 60" (150cm) diagonal
- 72" (180cm) diagonal
- 92" (230cm) diagonal

All produced using the same high quality material to our high standards, with the benefits of having mimio software included.

60"		72"		92"		Board size (inches)
W	H	W	H	W	H	Width/Height (mm)
1517	1091	1891	1091	2464	1091	Overall size
1183	961	1557	961	2130	961	Working area
